

Important Information

Financial Assistance for Small Businesses

As always, Farmers Bank of Willards remains open for business and will provide every resource available to assist our small business customers.

In connection with Governor Hogan's Office and other State and Local Agencies, we have been asked to provide a link to our small business customers for access to financial assistance.

This link provides access to various resources, where you can apply for low-interest State and Federal Loan programs (which includes Sussex Cty, DE), as well as grant money to accommodate Maryland small businesses through the next few months of the COVID-19 crisis.

Together we will work through this difficult time.
